February 26, 2010

Dear Assemblymember Rosenthal,

The League of Humane Voters of New York fully supports the legislation proposed by you in bill A07688 which makes psittacine birds, especially Quaker Parrots, protected birds.

The enactment of this bill would provide for the protection of Quaker Parrots which have established themselves as naturalized citizens in New York City. As other naturalized citizens in New York City, these delightful additions to our environment are deserving of protection and support. Although some call them an "invasive species," there are no known negative impacts by Quaker Parrots. Quaker Parrots are not prolific breeders, and do not leave the general area into which they are born. They do not threaten, or impact in a destructive manner, other birds species, animal species, trees or plants.

Many New Yorkers delight in watching these beautiful parrots. They are not considered pests, or detrimental to human interests.

We thank you for your sponsorship of this important legislation.

Peter Muller

Chair,
The League of Humane Voters of New York

Mission Statement of the League of Humane Voters®

The Mission of the League of Humane Voters® (LOHV) is to create, unite, and strengthen local political action committees, which work to enact animal-friendly legislation and elect candidates for public office who will use their votes and influence for animal protection.

February 26, 2010

Dear Assemblyman Sweeney,

The League of Humane Voters of New York fully supports the legislation proposed in bill A07688 sponsored by Assemblymember Linda Rosenthal which is currently before your Committee; it makes psittacine birds, especially Quaker Parrots, protected birds.

We are counting on your backing of this important legislative proposal by placing it on the Assembly Environmental Conservation Committee agenda as soon as possible and urging a favorable report on this bill from your committee members.

The enactment of this bill would provide for the protection of Quaker Parrots which have established themselves as naturalized citizens in New York City. As other naturalized citizens in New York City, these delightful additions to our environment are deserving of protection and support. Although some call them an "invasive species," there are no known negative impacts by Quaker Parrots. Quaker Parrots are not prolific breeders, and do not leave the general area into which they are born.
